Terms of use of Service SSOid.net provided by LLC "Identification"

In these Terms, the following terms and phrases have the following meanings:

Identification the procedure for the identification of the User and the verification of the User's data by comparing a certain range of parameters (email, login, password, etc.) requested by the Internet Service of the Data Recipient, for availability and compliance with the User's account, including the User's ID stored in the Operator's database, with the purpose of initiating the order of the Operator to transfer the User's personal data to the Recipient. Passing Identification for the first time the User joins these Rules as a whole and without reservations.

User's ID is an electronic identification tool (an indication of the User's account in the Operator's database) that enables the User to identify (register) Users in the information and telecommunication systems (Internet services) of the Recipients using the Single Sign-On technology. ID allows you to reliably identify the User in any Internet Service Recipient used by Users.

Single Sign-On is a technology that allows the User to identify (register) Users in the information and telecommunication systems (Internet Services) of the Recipients using a single user's login and password.

net is a set of Internet services of the Recipients, that have concluded respective agreements with the Operator about the use of the Internet service SSOid.net, and offer services to Users with its application.

Personal data - personal data of the User (in the context of information and / or content fields of the profile: id, login, first name, last name, date of birth, series, number, date and place of issue of the passport, taxpayer's ID, place of registration, contact details, tax status).

User is an individual who has contacted the Recipient via the World Wide Web to obtain information or other service.

Recipients are legal entities registered under the legislation of Ukraine, which have entered into agreement with the Operator on provision of services of SSOid.net service, in accordance with the procedure and on conditions, including those specified in these Terms. Recipients receive User's personal data from the Operator through the SSOid.net service to identify (register) the Users in the information and telecommunication systems (Internet services) of the Recipients to provide information and other services ordered by Users.

The **operator** is a Limited Liability Company "Identification", registration code in the URE: 41513455, location: 04071, Kyiv, Vozdvyzhenska st., 56, office 202, a legal entity that is registered and operates in accordance with the legislation of Ukraine.

Ordinance is the request of the User to the Operator to transfer the personal data to the Recipient in the amount determined by the Recipient.

Page of SSOid.net service - the Operator's web page (Internet service, information and telecommunication system), where the User passes the identification procedure, thereby initiating the Operator's order for the transfer of data to the Recipient.

The **Recipient's Service** is the Recipient's website (Internet service, information and telecommunication system) where the User applies for the purpose of receiving information or other services from the Recipient, which contains a link to Operator's Service.

SSOid.net service provided by the Operator is a service provided via the Internet and consists in organization of User's data transmission, and this User intends to receive from the Recipient an information or other service, from the Operator of the Recipient, for the purpose of identifying (registering) Users in the information and telecommunication systems (Internet services) of Recipients using the Single Sign-On technology.

How to use the service SSOid.net

The Operator provides Recipients and Users with processing services (including: for storing, updating, using) personal data of users - SSOid.net service, built on the Single Sign-On technology, which allows the User to go (to be registered) from one information and telecommunication system (module, service) into another without re-identification (authorization), with the provision of reliable data protection.

A user may use the SSOid.net service and go through identification procedure using it in order to receive information or other services of the Recipient (for registration in the information and telecommunication system of the Recipient) in the following order:

• go to the Site of the Recipient;

• on the Recipient's Site, select the registration or authorization page and go to the Operator's SSOid.net Service Page;

• pass the identification procedure on the Operator's SSOid.net Service Page;

• authorize (register) in the Recipient's Service.

From the moment the User has passed the Identification, it is considered that the User has given the Operator an instruction to transfer the User's data to the Recipient.

The Operator, while executing the User's order for data transmission, is not responsible for updating the data and is obliged to transfer to the Recipient only the data that was provided to him by the User without verifying their validity and completeness.

The Operator, upon receipt of the User's order, is obliged, within the shortest possible time, as permitted by the internal rules and regulations of the Operator, to prepare and transmit the User's data to the Recipient via the Internet. The operator is not responsible for the late execution of the order if the delay in the execution of the order was caused by a circumstance that does not depend on the will of the Operator.

From the moment the data is transferred to the Recipient, the Operator's obligation is considered as fulfilled. All further liability to the User for the proper processing of the data shall be borne by the Recipient, including preserving of their integrity and inviolability, for their non-disclosure, etc.

The Operator hereby declares, warrants and assures that the transfer of User's data from the Operator to the Recipients is organized in such a manner that any other third party does not have

access to the data for its analysis, study, copying, storage, reproduction and / or distribution thereof.

The transfer of the Users' personal data to the Recipient is carried out by the Operator, with the following security parameters: secure HTTPS connection with the valid certificate, and TLS encryption technology.

The user understands the risk of transmitting information with help and carries the risk of occurrence of all possible negative consequences of loss, unlawful seizure, technical interception of information, etc.

The Recipient of personal data is obliged to accept and store the received data in strict conformity with the requirements of the current legislation of Ukraine and these Conditions.

The Recipient is solely responsible for the proper conduct of the identification of Users and the provision of services to Users.

The Operator does not participate in resolving controversial issues regarding the identification and provision of services to the User by the Recipient, all these issues are resolved directly between the User and the Recipient in accordance with the requirements of the current legislation of Ukraine.

The risk of providing the service to the User based on non-relevant, inaccurate information / data, if such information / data was provided by the User to the Operator, is borne by the User and all controversial issues in this regard are resolved directly between the Recipient and the User.

The Recipient is required to create all the necessary conditions for the protection of information / data, to organize the appropriate access to information / data, which will ensure their safe use.

The Recipient is required to use the User's information / data only for the purpose of identifying the Users, with the subsequent consent of the Users to processing their personal data in accordance with their own privacy policies.

The Recipient is forbidden to distribute and disclose personal data to third parties.

The principle "As is" is the use of the Operator's SSOid.net service provided by the User provided that they are applied to the relations arising from these Terms, as well as to the SSOid.net service, etc., commonly used in the world practice of the principle "As is": the SSOid.net service (and / or its components), to which the User's functionality is accessed, is in a state of certain functional and / or technical capacity, the level of which is formed on the date of publication of these Terms and is sufficient and stable, and the User agrees to its use without additional conditions.

At the same time, the Operator, with the purpose of expanding the functionality of the SSOid.net service, to upgrade and modernize, reserves the right to implement new software and technological means and tools, update the SSOid.net service, develop and implement new services and functions.

Operator's offer

These Terms are the public offer of the Operator of an unlimited number of persons to enter into a public contract of accession, in the manner and in the conditions set forth therein.

The offer to accede to these Terms is considered accepted by potential Users from the moment of the procedure specified below.

Use of the Operator's Service for Users is free of charge.

Joining the User to these Terms

An individual or an authorized representative of a legal entity that intends to use the Recipient's Service must successfully pass the identification through the service SSOid.net of the Operator. Such person at the same time orders the transfer of personal data, joins these Terms and agrees to process personal data, gaining the status of the User.

The User's connection to the Terms is made each time he orders the transfer of personal data. The User joins the Terms until the moment when the User's instructions are fully executed.

Personal data

All information about the Users, personal data received by the Operator and related to the SSOid.net service of the Operator, are processed (including stored) in order to enable users to navigate (to register) from one information and telecommunication system (module, service) Recipients to others without re-identification (authorization) of Users, in full compliance with the requirements of the laws of Ukraine "On the Protection of Personal Data", "On the Protection of Information in information and telecommunication systems" and "On the E-commerce. "

Personal data of the User (in the context of information and / or content fields of the profile: login, first name, last name, date of birth, series, number, date and place of issuance of the passport, taxpayer's ID, place of registration, contact data, tax status) used in the identification, registration, authorization, editing of the profile and / or personal cabinet in the Recipient's Services are processed and stored by the Operator in order to provide SSOid.net services to the Recipients and Users.

Users agree that such personal data may be transferred by the Operator to third parties - solely to the Recipients that are in agreement with the Operator, aimed at developing the functionality of the SSOid.net service of the Operator, identifying Users in other Operator's information and telecommunication systems and / or Recipients (creation of personal cabinets and / or user profiles), expanding the range of possible Counterparts of Users, simplifying technological processes and / or increasing the level of protection of Users and their personal data.

The transfer of such data to specified persons is carried out by the Operator, with the exclusion of the possibility of leakage of data or their access to other third parties, with the acceptance of obligations to protect personal data of users in accordance with their own privacy policy and the security of personal data of the Operator's partners.

By using the SSOid.net service of the Operator, the User, as the subject of personal data, gives the Operator a clear consent (permission) to processing his personal data for the specified purpose, and frees the Operator from the obligation to separately notify about the transfer of such personal data in the case described above.

By using the SSOid.net service of the Operator, the User, as the subject of personal data, in case, if the purpose of the data processing is changed by these Terms, the Operator is released from the obligation to obtain the User's consent to processing of his data in accordance with the changed purpose, except the case, if the changed purpose of processing personal data is incompatible with the previous one.

By using the SSOid.net service of the Operator, the User acting on behalf of and in the interests of third parties confirms that he has sufficient powers to perform such actions, including those regarding the granting of consent to the processing of personal data on behalf of such third parties, as set forth above conditions as their authorized representative.

Using the SSOid.net service of the Operator, the User, as a subject of personal data:

- accepts these Terms in whole and in full;

- agrees to the processing of its personal data and confirms that he (she) is familiar with the purpose of processing the personal data specified in these Terms and the rights granted to the subject in accordance with art. 8 of the Law of Ukraine "On Protection of Personal Data".

Other terms

The Operator has the right to amend these Terms unilaterally. All changes made to the Terms will be available as a new edition posted on the Operator's Website.

All changes to the Terms come into force on the date they are posted. By using the services, including the SSOid.net service of the Operator, the User confirms the consent to the new Terms in in edition that operates at the time of use by the User of the service.

The Operator is not liable for any damage or losses sustained by the User or third parties as a result of a misunderstanding or misunderstanding of these Terms or instructions on how to use the SSOid.net service, regarding the order of data placement and other technical issues.

The User grants the Operator the right to send him messages containing information about the Operator, SSOid.net service and / or services or advertising information.
